

Intevac to Participate in 2019 AUSA Meeting and Exposition (Association of the United States Army)

October 10, 2019

SANTA CLARA, Calif.--(BUSINESS WIRE)--Oct. 10, 2019-- Intevac, Inc. (NASDAQ:IVAC) announced today that the company will participate next week in the 2019 AUSA Annual Meeting & Exposition. Intevac's Photonics Group designs and develops state-of-the-art sensors, cameras and systems that serve the military market.

Intevac's exhibitor booth will provide a forum for showcasing its products and technology directly to the individuals who use them. Various products will be displayed in the booth, including Intevac's Apache M611 camera, digital night-vision goggles, and patented sensors.

Through this exposition, Intevac will connect with industry stakeholders, including senior Army leaders and industry collaborators. The event provides Intevac with additional opportunities to gain further knowledge and insight into the Army's needs, so that the company can continue to contribute to the Army's success in a world of strategic competition. Intevac's booth at the Walter E. Washington Convention Center is #1353. Booth hours are Monday through Wednesday, October 14th through 16th, from 9:00 am. to 5:00 pm.

About the Association of United States Army 2019 Annual Meeting & Exposition

Held every October in Washington, D.C., the Association of the United States Army's Annual Meeting is the largest landpower exposition and professional development forum in North America. The Annual Meeting is designed to deliver the Army's message by highlighting the capabilities of organizations and presenting a wide range of industry products and services. AUSA accomplishes this task throughout the event by providing informative and relevant presentations on the State-of-the-Army, panel discussions and seminars on pertinent military and national security subjects, and a variety of valuable networking events. The meeting will include more than 700 Army & industry exhibitors connecting with more than 29,000 registrants from around the world.

About Intevac

Intevac was founded in 1991 and has two businesses: Thin-film Equipment and Photonics.

In our Thin-film Equipment business, we are a leader in the design and development of high-productivity, thin-film processing systems. Our production-proven platforms are designed for high-volume manufacturing of substrates with precise thin film properties, such as the hard drive media, display cover panel, and solar photovoltaic markets we serve currently.

In our Photonics business, we are a recognized leading developer of advanced high-sensitivity digital sensors, cameras and systems that primarily serve the defense industry. We are the provider of integrated digital imaging systems for most U.S. military night vision programs.
